SELECTED RECOGNITION

- Best Buy — Talent Quotient (2026)
- Best Buy client — AML Hall of Fame (2024, Wipro engagement)

Lead AI and ML engineer and data scientist with **10+ years** of experience, building production AI/ML/LLM systems. Leads end-to-end AI delivery, combining hands-on model development with technical leadership to turn business problems into scalable, high-throughput, low-latency production systems. Experience spans predictive modelling, forecasting, operations research, computer vision, and generative AI across retail, cybersecurity, manufacturing, insurance, and supply-chain optimization.

— EXPERIENCE

- **Lead Artificial Intelligence Engineer** Best Buy | Jul 2025 – Present
 - Productionized a reusable **LLM fine-tuning framework** using LoRA/QLoRA and deployed **vLLM-based inference serving on GKE**, with estimated annual API-cost savings of **~\$300K**. Kept inputs company-managed and reduced external API exposure at peak demand.
 - Built fraud systems spanning batch, streaming, and real-time models; feature pipelines handled **40,000 events/sec** at peak, supporting a **200 ms scoring SLA**. Improved holiday fraud-score coverage by **~20%**.
 - Lead **architecture and production delivery** of reusable ML and LLM systems; partner with data scientists on secure, monitored services.
 - **Lead ML Engineer — ML Engineering & Operations** Wipro | Aug 2023 – Jul 2025
 - Engineered **AWS account digital fingerprinting** with GPU-accelerated RAPIDS cuDF/CuPy training/inference on DGX (8xA100); per-entity autoencoders learned behavioral fingerprints from **billion-row AWS datasets** spanning 20+ days.
 - Scaled **Proofpoint phishing detection** to **2,400 emails/sec (2x throughput)**; incorporated security-team feedback and Sentinel integration to accelerate quarantine.
 - Automated **abuse-inbox analysis** with OCR and ML routing, **doubling case volume**; routed evidence to partners for takedowns.
 - Mentored **ML/MLOps engineers**; screened **300+ résumés**, conducted **50+ technical interviews**, and coordinated client/NVIDIA delivery.
 - **Senior Data Scientist — Data Science / Azure ML** Accenture | May 2021 – Sep 2023
 - Developed **product-quality prediction for BamaGruppen** with Azure ML: **\$2.5M/year saved; 130 to 160 truck inspections/day; +17% defect detection; +20% customer approval**.
 - Replaced manual Excel planning with automated last-mile routing and transport optimization using OR-Tools and mixed-integer models, integrating Azure Functions, Logic Apps and RPA to enable rapid replanning and improve delivery efficiency.
 - Evaluated **cost, freshness, carbon and hub-placement scenarios**; mentored data scientists and advised Norwegian stakeholders.
 - **Data Scientist** GD Research Centre | May 2020 – May 2021
 - Developed domain-aware **forecasts for GlobalData** across **15+ industry verticals** for enterprise market-intelligence decisions.
 - **Deep Learning Engineer** Tata Consultancy Services | Jul 2019 – Mar 2020
 - Built and deployed an end-to-end semiconductor ML system: distributed training on **~1 million images in ~3 hours; 90% classification accuracy**. Deployed at Amkor, South Korea, and trained the client team.
 - **Senior Software Engineer — ML** Infosys | May 2016 – Jul 2019
 - Implemented **opportunity scoring** using logistic regression, with Power BI reporting for sales prioritization. Delivered tested **ID-card generation** workflows and shared knowledge with the team.
