NLP

Production machine-learning engineer with 10+ years across software, ML, and MLOps, building systems from data and training through optimisation, serving, and monitoring. At Best Buy, architected LoRA/QLoRA LLM training and vLLM serving on GKE, with estimated annual API-cost savings of **~\$300K**, and leads fraud-risk ML with feature pipelines handling **40,000 events/sec** at peak and a **200 ms scoring SLA**. Earlier developed continuously retrained anomaly models over billion-row security data, company-wide forecasting across 15+ industries, and supply-chain optimisation and quality systems delivering \$2.5M annual savings. Hands-on with Python, PyTorch, TensorFlow, classification, forecasting, optimisation, LLMs, containers, model evaluation, and production monitoring.

EXPERIENCE

Lead Artificial Intelligence Engineer

Best Buy India
Jul 2025 - Present | Bengaluru

- > Architected a reusable platform for multi-task LoRA/QLoRA training, information extraction and classification, automated evaluation, artifact lifecycle, quantized models, and vLLM serving on GKE.
- > Built fraud systems across batch, streaming, and real-time models. Beam/Dataflow feature pipelines handled **40,000 events/sec** at peak; supported a **200 ms scoring SLA** with secure, monitored GKE/Seldon Core inference and load testing.
- > Designed Kubernetes autoscaling, controlled rollout, Cloud Build, ArgoCD, Prometheus, and Grafana; self-hosted inference supports estimated annual API-cost savings of **~\$300K** and improves data governance. Kept model inputs company-managed and reduced external API exposure during peak demand.
- > Lead technical direction across data science, platform, fraud, and security teams; review designs and mentor engineers.

Lead ML Engineer — Machine Learning & MLOps

Wipro
Aug 2023 - Jul 2025 | Hyderabad

- > Built continuously retrained per-entity autoencoder pipelines on NVIDIA DGX (8xA100), processing **billion-row** AWS CloudTrail data with Morpheus, RAPIDS, MLflow, and Grafana.
- > Engineered phishing classification at **2,400 emails/sec** - 2x prior throughput - plus GPU-accelerated OCR and unstructured-email processing for risk operations.
- > Led and mentored ML/MLOps engineers; coordinated client/NVIDIA delivery; completed **300+ résumé screens** and conducted **50+ technical interviews**.

Senior Data Scientist — Data Science / Azure ML

Accenture
May 2021 - Sep 2023 | India

- > Led Azure ML quality prediction with automated retraining and monitoring, increasing inspections from **130 to 160 trucks/day**, improving low-quality detection 17%, and generating **\$2.5M annual savings**.
- > Designed supply-chain optimization, hub-location and vehicle-routing optimisation using Python and Google OR-Tools; deployed operated services through Azure Functions, Logic Apps, and CI/CD.

PROJECTS

LLM Training, Evaluation & Serving
Best Buy | Transformers | GKE | vLLM

Config-driven LoRA training for classification, information extraction, and generation with automated evaluation, artifact management, autoscaling, and observability.

Risk Classification & Anomaly Detection
Best Buy / Wipro | Real time | Billion-row scale

Fraud classification, behavioral autoencoders, feature pipelines, secure inference, continuous retraining, model monitoring, and operational alerting.

ACHIEVEMENTS

15 honors and awards across Best Buy, Wipro, Accenture, and Infosys.
Best Buy Talent Quotient (2026): cybersecurity and fraud delivery.
Best Buy client AML Hall of Fame (2024): DGX delivery during the Wipro engagement.

ADDITIONAL PROJECTS & EXPERIENCE

Forecasting & Supply-Chain Optimisation
GlobalData / Accenture | 15+ industries
Domain-aware time-series forecasting, demand scenarios, simulation, multi-constraint routing, hub-location analysis, and decision-support outputs.

Azure ML Quality Platform
Accenture | \$2.5M annual savings
Model optimisation, retraining automation, deployment, monitoring, client demonstrations, support, and measurable warehouse-quality outcomes.

EARLIER EXPERIENCE & ACHIEVEMENTS

Data Scientist
GD Research Centre | May 2020 - May 2021
Built domain-aware time-series forecasting and scenario analysis across energy, manufacturing, healthcare, finance, retail, telecommunications, automotive, and other industry intelligence centers.

Deep Learning Engineer
Tata Consultancy Services | Jul 2019 - Mar 2020
Built and deployed an end-to-end semiconductor ML system: distributed training on ~1 million images in ~3 hours, with 90% classification accuracy. Deployed at Amkor, South Korea, and trained the client team.

Senior Software Engineer - ML
Infosys | May 2016 - Jul 2019
Built an ML-powered lead-conversion prediction system and business-intelligence applications that moved sales prioritisation from intuition to data.

Achievements
15 honors and awards
Best Buy Talent Quotient (2026); Best Buy client AML Hall of Fame (2024), during the Wipro engagement.

Vehicle Routing & Transport Planning
Accenture | Google OR-Tools | Operations research
Designed vehicle-routing and mixed-integer models covering capacity, time windows, waiting time, demand, and departure constraints, then automated daily operational planning.

Industry Forecasting Platform
GD Research Centre | Time series | Scenario analysis
Designed and deployed domain-aware forecasting across 15+ industries, combining feature engineering, time-series modelling, and scenario analysis for enterprise decisions.

System Ownership
Design | Implementation | Production operations | Maintenance
Owned AI/ML systems from data and training pipelines through evaluation, deployment, monitoring, maintenance, incident support, and continuous improvement.

Engineering Leadership & Team Building
Architecture | Mentoring | Hiring | Cross-functional delivery
Stayed hands-on while leading ML/MLOps delivery, mentoring engineers, coordinating client and platform stakeholders, and helping scale the India AI engineering hub during the Wipro engagement through 300+ résumé screens and 50+ technical interviews.
